

# CC Tutorials

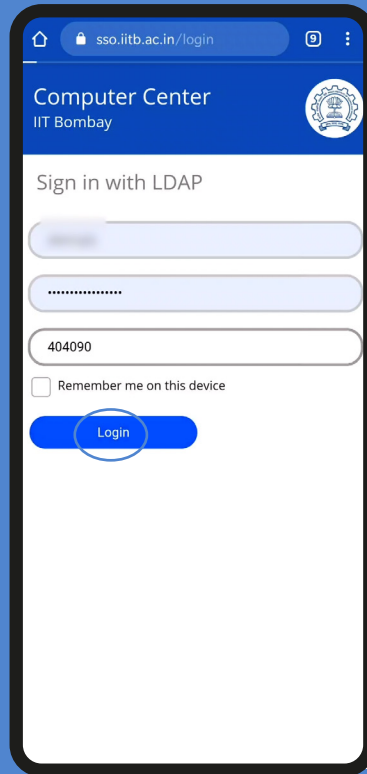

## Register a recovery mobile number

1.

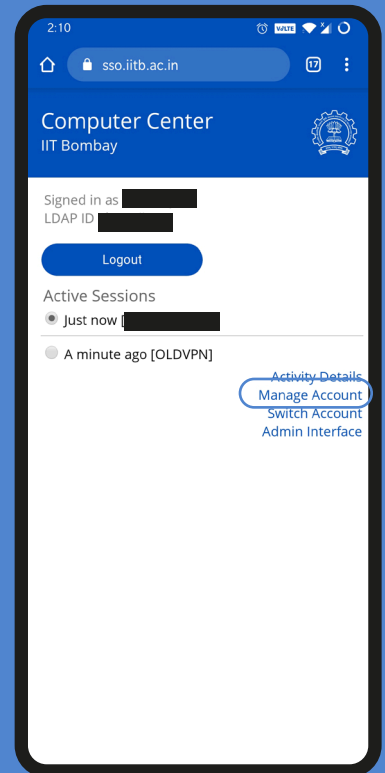

Open web browser and log on to sso.iitb.ac.in

2.

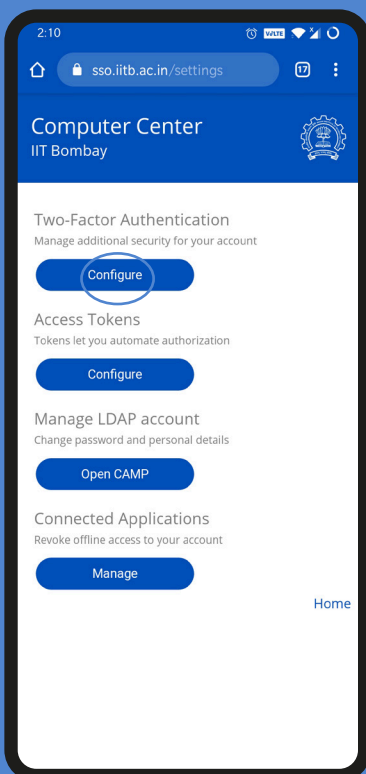

Login using LDAP ID and Password and get OTP from Google Authenticator

3.

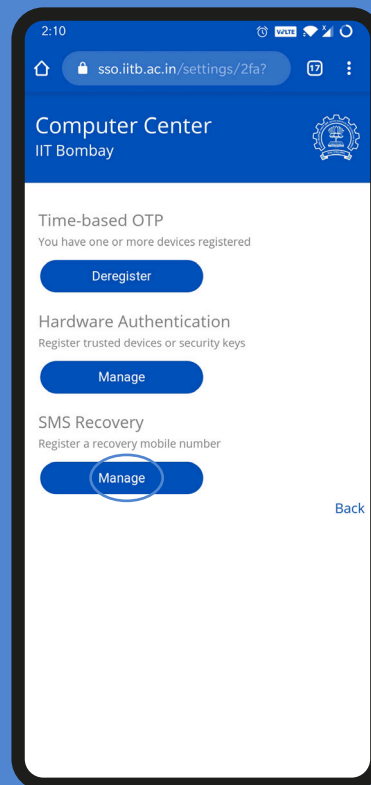

Click on 'Manage Accounts'

4.

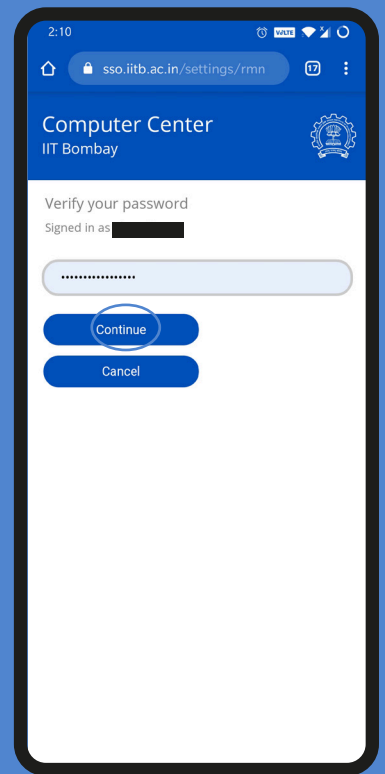

Click on 'Configure' under Two-Factor Authentication

5.

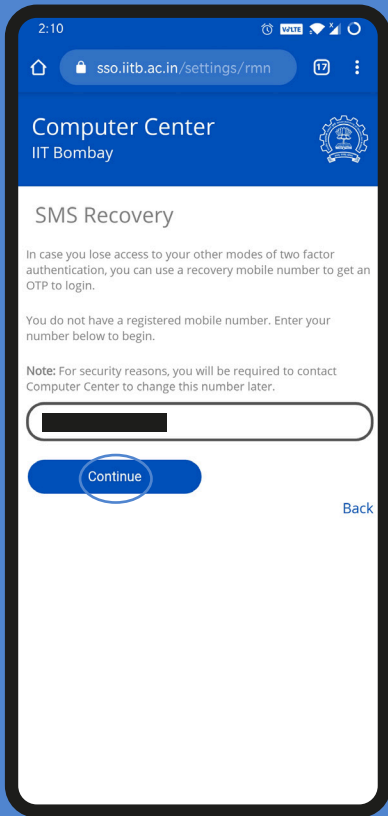

Click on 'Manage' under SMS Recovery

6.

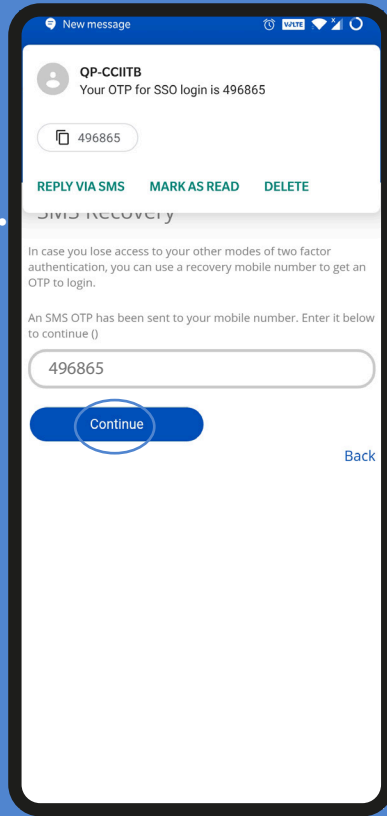

Type you password and click on 'continue'

7.

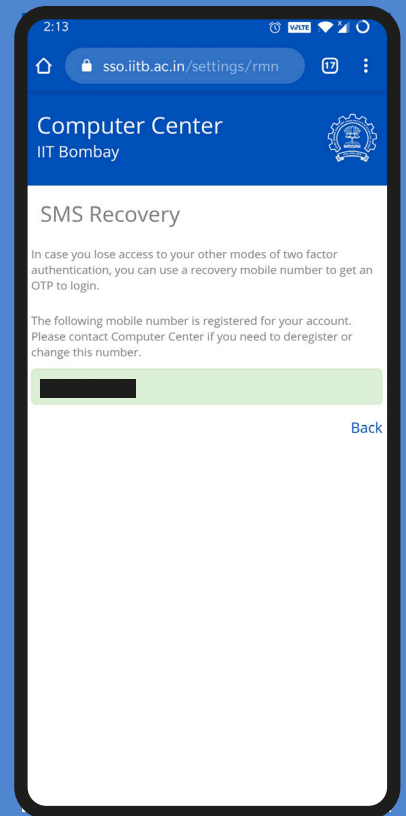

Type your mobile number and click on 'Continue'

8.

Enter the OTP and click on 'Continue'

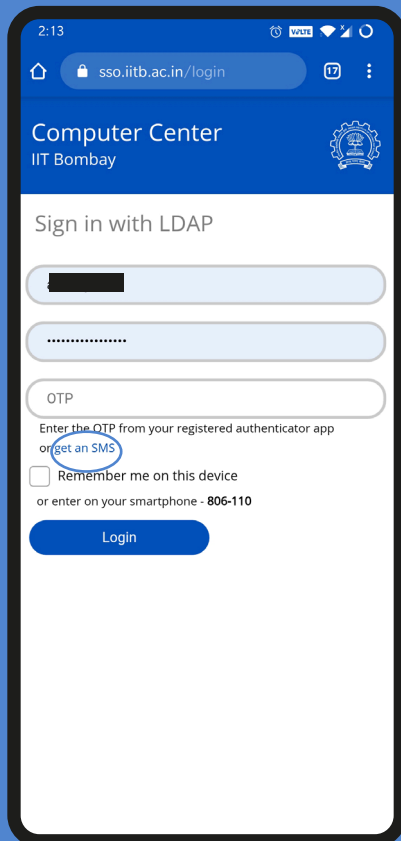

9.

You have registered your mobile phone

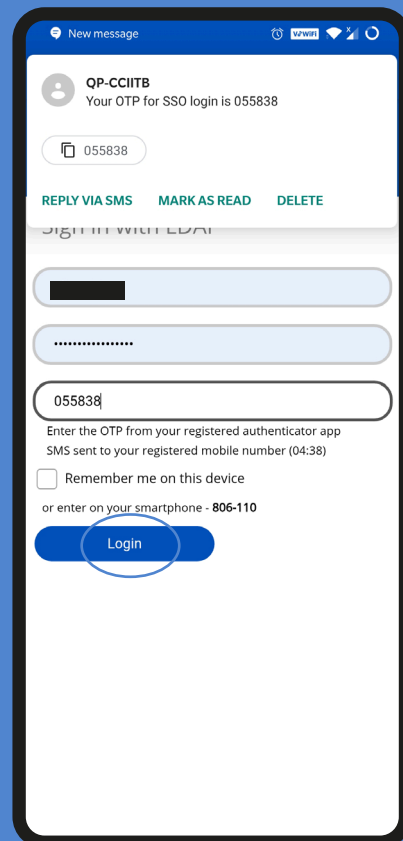

## If you have deleted Google Authenticator App.

1.

Click on 'get an SMS.'

2.

Write the OTP and click on 'Login'

## Note:

1. Since there is a limit on number of SMS, make sure you use it for recovery only.
2. Use Two Factor Authentication from Google Authenticator app for daily use.
3. If you wish to change your registered mobile number contact Computer Center.
